

Activity 6.1

Climb the ladder of success

With your section content planning completed, you are ready to complete the ladder for your section. A wall ladder is provided in your Yearbook Kit; however, your teacher may provide you with a smaller ladder form or ask you to draft your section ladder on notebook paper.

Arrange your stories in a logical way within your section. When the content is assigned to the ladder, your editors and advisers will assign them to a deadline. Also, if you have spot color or process color in your section, your editors and adviser will work with you to place it correctly.
